

WE OPEN MORE DOORS

CDI is dedicated to professionalism through its Training and Certification Programs and the learning opportunities it provides to Technicians and Support Advisers across Canada

By enrolling in the program, you will learn necessary skills to keep your workplace safe and your business prosperous. In addition, you will gain knowledge about construction and the tools you'll use, how to install, service, and repair overhead doors, and how to install, troubleshoot, and repair electric garage door operators.

The manual for this course contains detailed information, instructions, samples, and explanatory pictures to assist you in your career as an Overhead Door Technician. Below is what your personal profile will look like and what is required.

COURSE COST

CDI Members Only - \$100 + HST

COURSE MATERIALS

You will receive a course manual as well as the ability to download a PDF of the full course training manual.

Photograph	Pending		Not yet uploaded	

PREREQUISITE DOCUMENTS - LEVEL 1 OVERHEAD DOOR SUPPORT ADVISER

Name	Status	Comments	View	Upload
Attestation signed by your employer	Pending		Not yet uploaded	

If you work in the Overhead Door industry and want to take the Training program to enhance your knowledge of the industry, then registering as a Support Adviser is for you. You will not be certified to work in the field as a Technician but will gain a lot of valuable knowledge, making you a more effective employee. This is a great way to get people new to the industry up to speed quickly. The program material is identical to the Overhead Door Technician Level 1 material/exam, without the requirements of minimum field experience, WHMIS, and first aid qualifications.

EXAM

In order to pass, you need a grade of 80%. Retesting for those unsuccessful is available at no extra cost. Upon successful completion, you will receive a wallet card and certificate. There is a test completion time limit of 120 minutes.

REGISTER NOW!

CDI is dedicated to professionalism through education and training. The CDI Certification Programs set the educational standard for door technicians and support people across Canada.

If you think, as we do, that the course material will help you in your career and your business, register for the course on our website at https://cdi-door.com/student_applications
